

Introducing...

The CleanOut Plunger

- **Proven solid design for strength and durability using L-80 NACE spec material**
- **Excellent for paraffin, sand, scale, solids removal**
- **Lower efficiency but lower cost and higher longevity in the long term over brush plunger**
- **Opposing cutting surfaces and specially designed groove spacing improves turbulence and cleaning on both fall and return arrivals**
- **Flighting on bottom section promotes a spinning action to aid in even wear in deviated wells**
